

With the evolution of traditional TV and Web media merging into a seamless entity, Explore Media Group has stepped boldly into the arena and created intelligent fast paced entertainment that is perfectly suited for both worlds. Explore Media Group is an International HD and 3D Media Company with offices in Las Vegas, Nevada and Bangkok, Thailand. We have a team of professionals that create Media Projects along every stage of the production and post-production process.

Creative and Managing Director, Al Caudullo, a 30 year veteran in Live Event and Broadcast Video has experience in all phases of Production. Al's list of clients reads like a Who's Who of both Corporate America and Hollywood. The Oscars, MTV Awards, Nike, Sony Pictures, Motorola, National Geographic, Coca Cola, Microsoft, Ford Motor Company, ESPN, The US Open Golf Championship, The Official US Millennium Celebration in Washington DC and US TV show 60 Minutes to name but a few.

Currently, our 2 production vehicles cover both the traditional consumer market with "Explore World TV" (www.exploreworldtv.com) and the newest cutting edge technology of 3D with Al Caudullo as "That 3DGuy" at www.3DGuy.tv.

Our International television show, Explore World TV, is syndicated to 25 million homes in the United States on *AMGTV and Dream TV Networks*. We will also soon be seen on the *At Sports Network* in the U.S. and a brand new Network that will expand our presence through the UK to Eastern Europe region. Internationally, our show has been seen on The Viewpoint in Melbourne, Australia; our Explore Travel Show is seen in Russia; and segments from our show have been seen in Thailand. We are also in negotiations for distribution in India and will be announcing the details soon.

With 25 years of experience in both Video Production and Video Display Technology Al Caudullo continues to step into the forefront of technology introducing 3D video services. Utilizing the latest developments from Cineform Neo3D, Spatial View for After Effects and Assimilate's Scratch has taken on a new challenge of 3D media. Explore Media Group also utilizes state-of-the-art Grass Valley Edius Pro and Final Cut Pro digital editing systems and Professional Sony HDV – High Definition Z1 digital video cameras and related equipment. We can tackle any job, big or small, and deliver a final product that is professional but economical. We can produce a top quality finished video on almost any budget.

Explore Media Group's services include: HD video promotional material for Hotels, Resorts, Golf Courses, and Clubs around the world; shoots, edits, and produces 3D video; 3D video editing; convert 2D to 3D; provides training in 3D filming and post-production; and offers Stereographer Consultant Services for 3D Films. Truly, a full service media company for the 21st Century.
